

Course Outline

In order to achieve a successful outcome in the course pupils need to develop skills in the following areas:

Music: Performing Skill

In this Unit, learners will develop performing skills on two selected instruments, or on one selected instrument and voice. They will perform level-specific music with sufficient accuracy while maintaining the musical flow. Learners will, through regular practice and reflection, develop technical and musical performing skills.

Music: Composing Skills

In this Unit, learners will experiment with and use compositional methods and music concepts in imaginative ways when creating their own music. Learners will reflect on their own creative choices and decisions, and develop a basic understanding of how musicians develop their ideas and create their music.

Understanding Music

In this Unit, through listening, learners will develop knowledge and understanding of a variety of level-specific music concepts and music literacy. They will listen to music extracts and identify which specific music concepts are used and where these appear in the music. They will develop an understanding of the distinctive sounds of specific music styles and common music signs, symbols and terms used in music notation.
